

KLOVE radio station, which plays on 106.7 in my area has been a lifesaver for me. It helps calm me down when I am stressed. It has helped me through the death of my father, the death of my mother in-law and four miscarriages. The positive messages and encouragement cannot be duplicated! It is critical that KLOVE be allowed to continue to operate as they currently are. The community calendar, listing events of interest in my local area, has been very helpful. I know that the staff of KLOVE have prayed for me individually and have responded to emails. They are more than a radio station, they are a ministry. The effect on the local community would be horribly detrimental. Please allow KLOVE to continue broadcasting in my area. Thanks.
